Previous Year: _____

Electricity (kWh)

January	February	March	April	May	June	July	August	September	October	November	December

Gas²

January	February	March	April	May	June	July	August	September	October	November	December

Current Year: _____

Electricity (kWh)

January	February	March	April	May	June	July	August	September	October	November	December

Gas

January	February	March	April	May	June	July	August	September	October	November	December

Previous Year Total Energy Use = _____ kWh

Current Year Total Energy Use= _____ kWh

¹ Make sure that the readings you use are consistent with the billing you have been issued. If you are issued your bill for January in February, then make sure the data is entered correctly.

² As of January 2011 it is not necessary to include gas numbers. We are simply looking for electricity use.
